Summary

Data engineer and ML practitioner with a proven track record building end-to-end ELT pipelines, predictive models and analytics dashboards using Python, dbt, BigQuery, XGBoost and Streamlit. Brings rare business domain depth across supply chain, procurement and finance operations to enable data solutions that are technically sound and operationally meaningful. Experienced in Medallion architecture, MLOps (ZenML, MLflow) and RFM segmentation. Background in enterprise systems provides strong data modelling intuition and understanding of source system complexity.

Experience

Professional Development & Portfolio Projects • zhang-wenxi.github.io

Nov 2025 – Present

- Built interactive Streamlit dashboard (jobmarketsalary.streamlit.app) analysing Singapore salary data with dynamic filters, trend visualisations and segment benchmarking.
- Built end-to-end production Medallion ELT pipeline (github.com/zhang-wenxi/2026-02-06_DS4_GP5_olist) with Meltano, dbt, Dagster, Kimball star-schema, RFM segmentation and live Streamlit dashboard (KPIs, revenue trends, market share).
- Built end-to-end MLOps binary classification engine (huggingface.co/spaces/zhang-wenxi/dataco / dataco.streamlit.app) with ZenML, MLflow, XGBoost stacking ensemble and SHAP; F1-weighted 0.689 for supply chain late-delivery prediction.

Local Consulting Firm • Senior Lead Consultant

Jun 2022 – Nov 2025

- Led SAP projects: 9% GST upgrade (end-to-end sales to invoicing), ATP to AATP (BOP run), new inventory stores (SD/MM/WM), and sales contract adjustments.
- Technical upgrade to S/4HANA 2021; managed integration testing with 3rd-party POS retail sales orders, billing docs, and 3PL delivery docs.
- Led Fiori + RFID custom logistics project (inventory placement, goods issue, stocktaking) – delivered in 2 months from requirements to UAT and rollout.
- Reduced support tickets by 30% via FAQ and tier-1 resolution guides; upgraded SAP SuccessFactor HCM to 2023, leading code remediation, testing, and go-live for leave module.
- Evaluated and demonstrated AI/ML capabilities for enterprise decision support, including predictive analytics use cases for sales and inventory optimisation.

Local Consulting Firm • SAP Consultant, APAC

Apr 2021 – May 2022

- Delivered end-to-end S/4HANA implementations for Manufacturing and Pharmaceutical clients (SD, MM, WM, FI) with blueprint sign-off, UAT, and hypercare support.
- Created 20+ BPMN models across 15 workshops; developed standard configuration and customer reports (quotations, sales orders, invoices, aging, etc.).
- Designed and executed data cleansing and validation pipelines for large-scale enterprise data migrations, ensuring integrity across SD, MM, WM and FI datasets.
