SUMMARY

PMP and SAP Activate/Change Management/SD/FI–certified techno-functional consultant with 10 years of delivering BI and ERP solution implementations (2 greenfield S/4 Hana rollouts, 2 upgrades(S/4HANA 2021 FI/SD/MM and SuccessFactors HCM 2023), Concur Expense App on cloud implementation, 3rd party integrations, POS and SESAMi system to SAP). Change manager: Skilled in transforming knowledge management portals and training for IT operations. IT Vendor Manager: Led cross-cultural teams. Expertise in full-cycle project delivery, risks and budget control, governance, agile principle, conflict and stakeholder management.

EXPERIENCE

Big local Consulting Firm | Senior Consultant (Team Lead) | Singapore | 1 Jun 2022– Nov2025

• Led a team of 10 members, executing SAP projects that included a 9% GST upgrade, ATP to AATP rework, new inventory store go-lives, a retail system upgrade, and new sales contract plan adjustments, ensuring all rollouts were delivered on time.
• Led a seamless FI/SD/MM technical cutover (working with Basis for transports) to SAP S/4HANA 2021, using SAP Activate methodology, in 6 months, delivering 100+ test objects with 3PL, POS, and 3rd-party sales/billing integration.
• Managed the delivery of the Employee Self Service Portal – IM8 Compliance with features injury claims, compensation and leave application) and admin portal(Core PA module) for the technical upgrade to SAP SuccessFactors 2023 HCM, completing ABAP remediation, testing (custom objects, SAP notes, interfaces(APIs and RFCs), and Fiori apps), and go-live with retrofit testing through Agile JIRA sprints.
• Delivered the Fiori RFID logistics app in 2 months, covering inventory, goods issue, and stocktaking, with functional specifications, test scripts, user guides, UAT, and rollout.
• Led creation of a project library with FAQs and first-line resolutions, improving efficiency and rfeducing support tickets by 40%.
• Standardized and designed quick-response templates for frequent change requests, from cheque information removal from printouts to central purchase contract updates.
• Managed 3.5 million dollars for ongoing support of new initiatives to streamline finance and logistics operations (e.g interfaces to SESAMi eProcurement to SAP) in the client environment.
• Led SAP Predictive AI to improve sales decisions and automate invoice email to folder with RPA tool(Bot agent and SAP Build)

Local Consulting | SAP Consultant | Singapore | Apr 2021 – May 2022

• Delivered a greenfield S/4HANA implementation for a pharmaceutical client tailoring PTP make to stock process in 2 months.
• Delivered a greenfield S/4HANA implementation for a high-tech manufacturing client, tailoring make-to-order stock processes and configuring WM aligned to factory layout and operational flows, with SD OTC, MM PTP, and PP/QM/FI integration, within 1 year.
➢ Engaged stakeholders through interviews and workshops to uncover root problems, define requirements with user-centric solutions.
➢ Develop requirements with RTM and prioritized backlog epics for each sprint iteration, ensuring alignment with sprint goals.
➢ Led discussions and configured standard/custom reports (quotation, sales order, proforma, invoice, sales analysis, aging).
➢ Maintained project documentation, ensuring clear communication, coordinated signoff for all deliverables, and stakeholders alignment.
➢ Managed SD/MM/WM custom object scope/config, adhering to SAP best practices and ensuring alignment with client requirements.
➢ Led data migration efforts for SCM (master and transactions), overseeing the transfer of critical business data with zero integrity issues.
➢ Conducted SIT/UAT, training, and hypercare(FICO,SDMM) facilitating change management with smooth adoption to the new system.

Semiconductor Company | SAP Manager | Singapore | May 2017 – May 2018

• Led multi-million-dollar SAP Concur rollout in Singapore, Malaysia, and the Netherlands, delivering a phased automated T&E system adopted by 150 users in a year. Being the point of contact throughout the full cycle between vendor and domain expert stakeholders.
➢ Evaluate RFQ using CBA, vendor selection and contract negotiation for global finance Travel and Expense across SG, MSIA and EU.
➢ Developed governance to measure supplier performance and monitor their process against SLA to meet business requirements.
➢ Directed project scope, timelines, and risk mitigation strategies to ensure seamless execution and on-budget delivery.
➢ Spearheaded user requirement gathering with interviews, aligning needs with tech solutions, and guiding trade-off decisions.
➢ Managed risks in risk register associated with projects' stakeholders (vendors, sponsors, SMEs, and end users).
➢ Align business processes requirement with RTM to monitor schedule on efforts for system Integration development, UATs, trainings.
➢ Handles change management tasks, e.g. trained key users and developed self-help guides, enabling broad user adoption.
➢ Managed post-implementation issue resolution and vendor relationships, ensuring rapid turnaround on critical fixes.
• Delivered weekly KPI reports to global stakeholders, ensuring transparent progress tracking and informed project decisions.
• Performed daily maintenance support and led new Power BI initiatives to develop financial reporting for the Singapore Finance team.

Local Tech Company | Lead Business Analyst | Singapore | Aug 2014 – May 2017

• Led BPR initiatives using ASAP methodology to streamline workflows and reduce resolution time with Shared Services.
• Directed rollout of global templates across Greater China to accelerate instance setups and improve operational efficiency.
• Led change management controls for SAP transformation, ensuring seamless adoption and delivery across all stakeholders.
• Developed a new change management and transport procedures workflow to put in place version release management in Production Support with a new change request system (from raising of request to approval to sign-off by users), with ITIL practices.
• Worked with leaders to identify new roles with new segregation of duty (SOD) in all functional departments
• Delivered SAP trainings and customer-focused best practices, embedding improved processes into the client environment.
• Managed Intercompany Sales and POS projects, overseeing scope, budget, schedule, and cross-functional collaboration.
• Cofigured background jobs for finance and logistics to optimize system functionality.
• Led and assigned development tasks with in-house developers, ensuring timely delivery and quality outcomes.
• Effectively communicated integration rollouts to key functional users, facilitating smooth adoption.
• Act as bridge development teams and domain experts in sales teams on requirement gathering to training for newly developed solutions for return process for faulty (warranty) items to new plant and backend POS-SAP integration, enhancing data-driven decisions.
• Provided go-live support for issue logging.

Japanese IT Service Provider | Senior Business Analyst | Singapore | Jun 2012 – Aug 2014
• Led requirements gathering and developed 50 reports with COE team in APAC with timely rollout of sales analysis and billing.
• Handled all SAP MM/SD/FI change requests as the primary support resource as bridge between COE dev teams and domain experts.
• Liaised with vendor to pilot QlikSense as a proof of concept. Developed departmental data visualization dashboards using MS SQL with 10+ report visualizations adopted by cross-functional teams.

Local Transport Company | Senior System Analyst | Singapore | Oct2007-Feb2010
• Delivered a project with RFID tool for inventory stock-in/out, involve efficient vendor liaison and support for procurement module.

Local University | Senior Software Engineer | Singapore | Jan 2006 - Sep 2007
• Analyzed and developed web course application solutions using ASP.NET and JavaScript as a web administrator for university courses.
• Executed change, incident, and problem management for SAP MM to meet SLAs and ensure compliance within the ITSM framework.
• Standardized the work processes to comply with audit findings with SAP EarlyWatch monitoring and analysis.

Statutory Board | Senior Software Engineer | Singapore | Jun 2003-Dec2005
• Integrated SAP programs (RFCs, BADI, IDOC) with Info Broker middleware in collaboration with third-party teams.
• Develop fully customized procurement and HR leave inhouse system for government procurement and HR process from scratch using Powerbuilder. Inhouse procurement systems was retired with the introduction of GeBiz.

PROJECT ACHIEVEMENTS

SAP SuccessFactors 2023 HCM version Upgrade Jan • Feb 2025- Jun2025
• Rolled out Successfactors employee self service upgrade, from code remediation to retrofit, covering SAP notes, interfaces, objects.
SAP AI solutioning and Presales • Feb 2025
• Showcased AI adoption in SAP Sales via predictive delivery dates and automated invoicing using Desktop Bot.
Fiori applications with RFID technology • Oct2024 – Feb2025
• Led RFID testing for Fiori logistics apps, achieving 50% warehouse time reduction and eliminating manual errors.
Retail POS upgrade integration with SAP • Apr 2024 – Sep 2024
• Led retail POS upgrade rollout, enhancing SAP SD integration and achieving 60% improvement via real-time posting.
GST(9%) upgrade project • May 2023 – Dec 2023
• Led the 9% GST increase project for Finance FICO/Logistic SD process.
SAP S4 2021 (from 1809) version Upgrade Jan • Jan 2022- Jun2022
• Led 10 member team for S/4HANA 2021 FICO and logistics upgrade, testing 100+ objects, reducing support costs 30%.
SAP S4Hana greenfield rollout for Hitech client • Apr 2021 – May 2022
• Rolled out SD, MM, WM modules on S4Hana 2021
Integration with Non-SAP Platforms with SAP Concur and PowerBI reportings rollout • Jul 2017 – Jun 2021
• Led SAP Concur rollout across 3 regions, achieving 80% manual work reduction and 250% ROI in 24 months.
Integration with Non-SAP Platforms with Retail POS Implementation • Aug 2014 – May 2017
• Led the rollout for new retail POS with full integration to SAP ERP 6.0 Sales and invoice for Greater China and Singapore.
Manless RFID warehouse to draw stock • Oct2007-Feb2010
• RFID project for a fully automated RFID based warehouse management system in the warehouses (Changi and Ulu Pandan depots).
Governance, Security, and Compliance
• Successfully completed two-yearly SAP audits with external auditors.
• Successfully deployed security profiles for 500 users and maintain profiles of all new users, existing users, and defunct users in SAP
SAP Inventory Module for Defence Technology Rollout • Jun 2003-Dec2005
• Successfully completed one full cycle and rollout a classified unit's SAP Inventory Module for Defence
In-house procurement/HR system • Jan 2001 to May 2003

EDUCATION

Bachelor in Computing • Degree in Computing • **Monash University** •3.8 Focused on enterprise systems, software engineering, and database design.
Diploma • Diploma in IT • **Temasek Polytechnic** Covered core IT modules including systems analysis, data structures, programming, and project delivery.

CERTIFICATION

NICF CERTIFIED IN RISK AND INFORMATION SYSTEMS CONTROL® (CRISC®) (SF) • NTUC Learning Hub • Dec 2025
SAP Certified Associate - Enterprise Architecture Consultant - SAP LeanIX • Jul 2025
SAP Certified Associate - Process Management Consultant - SAP Signavio • Jun 2025
SAP Certified Associate - Organizational Change Management • Jun 2025
SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Sales • Feb 2025
SAP Certified Associate - Business Process Integration with SAP S/4HANA • Jan 2025
SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Finance Accounting • Dec 2024
SAP Certified Specialist - Project Manager-SAP Activate for Agile Implementation Management • Oct 2024
Certified Project Management Professional • Project Management Institute • 2017
ITIL(r) 4 Foundation: Key Concepts of Service Management • Nov 2023

SKILL

• ITIL, Project Management Tools: JIRA, Excel, MS Project
• SAP S/4Hana, SAP Concur, SD, MM, WM, FI, SAP Migration Cockpit (LTMC/ATC), Business Process Modeling (BPMN2.0), EA literacy (using TOGAFphases) and Capability Mapping (Signavio, LeanIX), SAP Activate-aligned architecture delivery, ABAP Debugging
• RPA: SAP Build Process Automation and Desktop Agent configuration
• MS ASP.Net framework, Powerbuilder, Visual Basic, Javascript, J2EE, Oracle Reporting, PLSQL

LANGUAGE

• Effectively bilingual in English, Mandarin and Cantonese
